IN publishing this Catalogue, we wish it to be well understood that the illustrations which it contains are only a few examples of the manufactures turned out from our works, and that we are the actual manufacturers of the many and various articles which we offer. A list of our Works Showrooms, and Wholesale Branch Showrooms will be found at the foot of the preceding page, and our customers are reminded that, no matter where they may be, they can find a branch within easy reach at which they can actually see the goods before purchasing. Our manufactures are easily distinguished from those of other makers by the trade

mark which guarantees them. The fact that the goods are made in our works ensures uniformity in pattern and style, and enables us to produce at the best possible value to customers. We employ the most highly skilled workpeople, and pay special attention to the quality of material used. The very large quantities of goods turned out each year enables us to put our goods on the market at the cheapest rate; and in this connection we desire to draw the attention of our customers to our cabinet and case manufacturing department. All our goods, when desired, are fitted into cabinets and cases made on the premises, resulting not only in producing high-class quality, but also, as in many other instances, entirely eliminating intermediate profits.

We are at all times pleased to prepare and submit designs of Presentation Plate or Trophies for approval for any special object, and for this purpose we maintain an experienced staff of art designers. We shall be pleased to send goods on approval, which may be returned in seven days if not approved. Our works are the largest of their kind in the British Empire. We are proud to mention that we have been honoured by visits to our works on two occasions by Their Majesties King George and Queen Mary, who expressed keen pleasure in the various processes of manufacture. We have also had our works inspected by other Royal Visitors and many distinguished people from all parts of the world, and we are always pleased to take our friends through the many workshops which they contain.

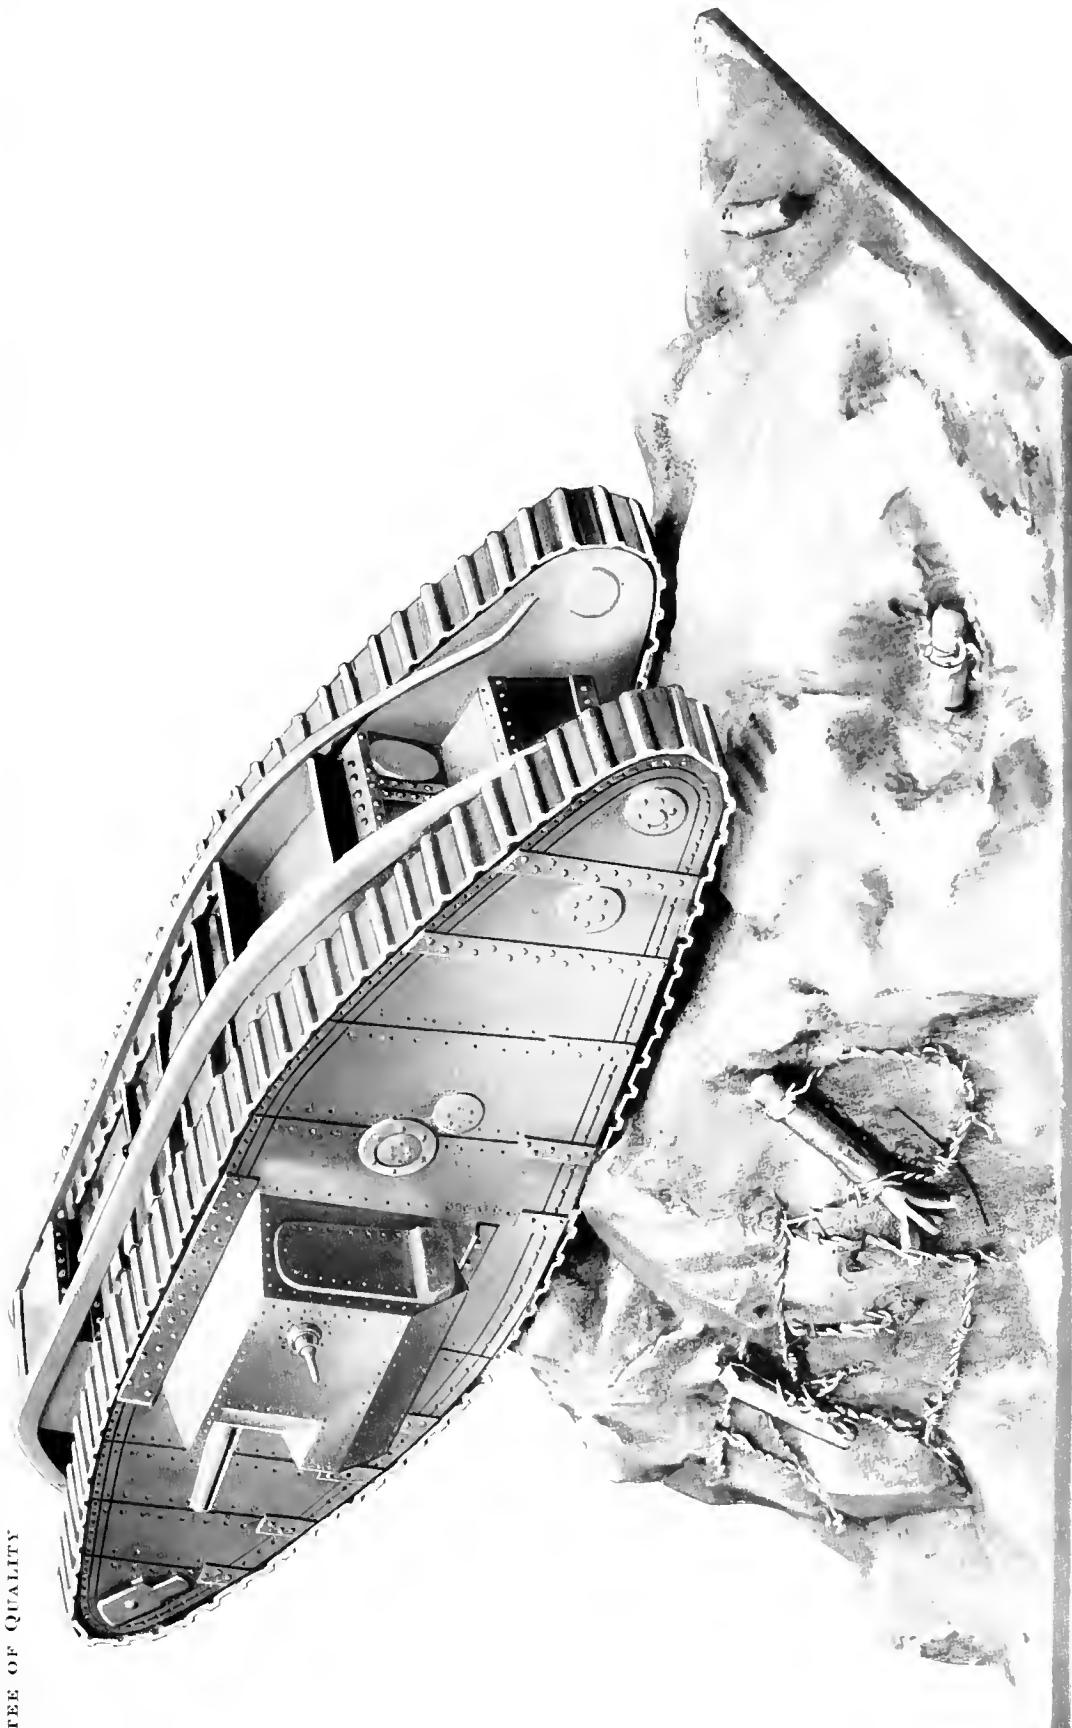

Our reputation has been made, and will be maintained in future years, by the wearing quality and taste in design of our manufactures. We have a very large selection of Plate and Cutlery for hire for public functions, dinners, camps, etc. We also have a special department for repairing and replating customers' own goods.

H. Silver Spoons and Forks

WEAR WHITE THROUGHOUT

OLD ENGLISH

YOUR attention is respectfully drawn to the price of the "H. HALL SILVER" Registered Spoons and Forks. This metal, in appearance, is the nearest to real silver, from which it can scarcely be distinguished. It is very hard and strong, retaining its original whiteness and purity of colour throughout.

Please see that every article bears the Trade Mark, thus: H.  HALL. Without this none is genuine.

WALKER & HALL'S

"NON-STAIN" STEEL TABLE CUTLERY

A *Sheffield Invention!*

THE BLADES ALWAYS REMAIN BRIGHT

THEY WILL NOT RUST, TARNISH,
OR STAIN

The expense of knife-cleaning machines is done
away with.

The life of the blade is much longer, as it is not
ground away by the action of cleaning.

They have a fine cutting edge.

You can order with every confidence.

Any style of knife can be supplied.

— NOTE —

Owing to the uncertainty with regard to the cost of material and the apparently never-ending demands of labour, it is not possible to fix prices for a definite period. New price lists will therefore be issued from time to time as occasion demands, and may be substituted in this Catalogue

REVISED PRICE LIST

We are pleased to inform you that we are able to further reduce the prices of Goods we manufacture. A varied selection of these we illustrate in our General Catalogue, a copy of which we have already had the pleasure of sending you. This reduction of prices warrants the issue of a new Price List. Will you please substitute this Price List for the one you have attached to the inside back cover of your Illustrated Catalogue.
